Section 1 **Short title**

This Act may be cited as the Texas Local Fire Fighters Retirement Act.

Section 2 **Definitions**

In this Act:

(1) “Contribution” means an amount of money paid by a municipality or other political subdivision to a retirement system or required to be paid periodically to a retirement system by or on behalf of a member of the retirement system for the purpose of financing benefits payable by the system.

(2) “Employee” means a person who regularly performs services for a fire department, who is a member of the retirement system that includes the fire department, and who regularly receives compensation for those services of at least \$200 a month. The term includes a person described by Subsection (d) of Section 9 of this Act who regularly receives compensation by the municipality or other political subdivision of at least \$200 a month.

(3) “Fund” means a trust fund established in conjunction with a fire fighters’ retirement system for the purpose of holding assets to be used to finance benefits payable by the system.

(4) “Participating member” means an employee who is required to make periodic contributions to a retirement system or a volunteer who meets the requirements of Subsection (b) of Section 10 of this Act.

(5) “Regularly organized fire department” means a unit that is responsible primarily for fighting fires and responding to other emergencies each day and that has specialized equipment for use in performing those tasks.

(6) “Retiree” means a person who receives a benefit, other than a return of contributions, from a retirement system for services the person performed as a member.

(7) “Retirement system” means a fire fighters’ retirement system established as provided by Section 4 of this Act.

(8) “Volunteer” means a person who regularly performs services for a fire department, who is a member of the retirement system that includes the fire department, and who either receives no compensation for those services or regularly receives compensation for those services of less than \$200 a month. The term includes a person described by Subsection (d) of Section 9 of this Act who either receives no compensation for service to a municipality or other political subdivision or regularly receives compensation for that service of less than \$200 a month.

(9) “Compensation” includes amounts of workers’ compensation benefits received by an employee and by which the employee’s salary is reduced.

(10) "Determination date" means:

(A) the day before the effective date of an addition or change adopted by the board of trustees of a retirement system under Section 7 of this Act; or

(B) the date of divorce for a member or retiree whose benefits under this Act are subject to a qualified domestic relations order.

(11) "Vested accrued benefit" means the amount of the monthly benefit that a person is entitled to receive based on the person's service credit and compensation history as of the determination date under the benefit formula and other terms established by a retirement system, including a vested percentage where applicable, as those terms exist on the determination date. The vested accrued benefit of a member is calculated without regard to any optional form of payment the member may select at retirement. The term does not include cost-of-living increases that may be applied to a benefit after the determination date.

Section 3

Application of Act

(a) This Act applies to each municipality in the state that has a regularly organized fire department not consisting exclusively of volunteers, except:

(1) a municipality all of whose fire department personnel participate in the Texas Municipal Retirement System;

(2) a municipality whose fire department is governed by another state law providing for retirement benefits for fire department personnel; and

(3) a municipality that has in effect a program providing retirement benefits for fire department personnel that was established by charter or ordinance before September 1, 1989.

(b) This Act also applies to each municipality in the state that has a fire department that:

(1) consists exclusively of volunteers;

(2) was organized before September 1, 1989, and remains a regularly organized department; and

(3) does not participate in the statewide program provided by Chapter 269, Acts of the 65th Legislature, Regular Session, 1977 (Article 6243e.3, Vernon's Texas Civil Statutes).

(c) If a municipality's fire department consists partly of employees participating in the Texas Municipal Retirement System and partly of employees or volunteers not participating in that retirement system, this Act applies to the persons who are not participating in the Texas Municipal Retirement System. In that circumstance, a provision of this Act that applies to members of a retirement system or to members of a fire department applies only to those members who are participating in a retirement system under this Act.

(d) If a municipality's fire department consists partly of volunteers participating in the statewide program provided

by Chapter 269, Acts of the 65th Legislature, Regular Session, 1977 (Article 6243e.3, Vernon's Texas Civil Statutes), and partly of employees not participating in that program, this Act applies to the fire department personnel who are employees. In that circumstance, a provision of this Act that applies to members of a retirement system or to members of a fire department applies only to those members who are employees.

(e) In addition to the other applicability of this Act, this Act applies to a political subdivision that has a regularly organized fire department not consisting exclusively of volunteers, except a political subdivision whose fire department is governed by another state law providing for retirement benefits for full-time paid fire department personnel. If the political subdivision's fire department consists partly of volunteers eligible to participate in the program provided by Subtitle H, Title 8, Government Code, and partly of employees, this Act applies to fire department personnel who are employees.

Section 4

Retirement System and Trust Fund

A fire fighters' retirement system and trust fund are established in each municipality or other political subdivision to which this Act applies. The board of trustees of each retirement system established by this Act shall hold or cause to be held in trust the assets appropriated or dedicated to the system or fund, separate from other money or accounts administered by the board of trustees or the municipality or

other political subdivision, for the exclusive benefit of the members and retirees of the system and their beneficiaries.

Section 5

Exemption from Judicial Process

All amounts in a trust fund of a retirement system subject to this Act and all rights accrued or accruing under this Act to any person are exempt from garnishment, attachment, execution, state and municipal taxation, sale, levy, and any other process and are unassignable.

Section 6

Social Security

Provisions of a retirement system may not be integrated with social security as otherwise permitted under Sections 401(a)(4), (a)(5), and (I) of the Internal Revenue Code of 1986 (26 U.S.C. Section 401).

Section 7

Modification of Benefits and Eligibility

(a) The board of trustees of a retirement system may change the benefits or eligibility requirements for benefits payable from the retirement system, may provide for reinstatement by a member of service credit previously forfeited, and may adopt or change other requirements for the payment of benefits, except as otherwise prohibited by this Act.

(b) Before a board of trustees chooses to adopt or change a benefit or requirement for payment of benefits under this

section, the proposed addition or change must be approved by:

(1) an eligible actuary selected by the board; and

(2) a majority of the participating members of the retirement system voting on the addition or change by secret ballot at an election held for that purpose at which at least 50 percent of all participating members of the retirement system vote.

(c) To be eligible to approve an addition or change under this section, an actuary must be either a fellow of the Society of Actuaries or a member of the American Academy of Actuaries.

(d) Except as provided by Subsection (e) of this section, if a board chooses to adopt an addition or change after it has been approved as provided by this section, the addition or change applies to all persons who are participating members of the retirement system on the effective date of the addition or change and all persons who became participating members during the time the addition or change remains in effect. The addition or change also may apply to:

(1) persons receiving monthly benefits; or

(2) former members of the fire department who meet an applicable length-of-service requirement for service retirement.

(e) An addition or change adopted under this section may not, without the written consent of the member, retiree, or eligible survivor under Section 15 of this Act, deprive a member of the

retirement system, a retiree, or an eligible survivor of a right to receive a vested accrued benefit.

(f) The effective date of a change or addition adopted under this section is a date specified by the board of trustees that is not earlier than the date of adoption by the board. A change or addition may not be applied retroactive to its effective date unless required to maintain a plan's tax qualification status.

Section 8

Recovery of Amounts Wrongfully Obtained

The board of trustees of a retirement system subject to this Act may initiate or cause to be initiated a suit against any appropriate person to recover amounts paid or obtained from the trust fund through fraud, misrepresentation, theft, or other misapplication or by mistake. The board of trustees shall deposit amounts recovered under this section in the trust fund for the retirement system.

Section 9

Membership

(a) Except as otherwise provided by this section, a person who is an employee of a fire department included within the coverage of a retirement system is a member of the retirement system if the person is younger than 36 years old on the date the person is certified under civil service as eligible for a beginning position with the department.

(b) Except as provided by Subsections (c), (d), (e), and (g) of this section, a person who performs services as a volunteer of

a fire department included within the coverage of a retirement system is a member of the retirement system.

(c) A board of trustees established under this Act may, in accordance with Section 7 of this Act:

(1) require a waiting period before retirement system membership begins;

(2) include within the required membership of the retirement system categories of personnel, other than personnel performing services for the fire department, who perform emergency medical or fire department-related services; or

(3) exclude from membership categories of fire department personnel not regularly directly engaged in the fighting of fires.

(d) If a board of trustees, under Subdivision (2) of Subsection (c) of this section, includes categories of personnel within the membership of a retirement system, for purposes of this Act, the personnel are considered employees or volunteers, as applicable, of the fire department and their service is considered as if it were performed for the fire department included within the coverage of the retirement system.

(e) As a condition of membership in a retirement system, a board of trustees may by order require persons to pass a physical examination given by a physician of the board's choice but may not require the persons to pay the cost of the examination.

(f) A board of trustees of a retirement system for a fire department may by order authorize membership in the retirement system for employees of the department who are 36 years old or older at the time they become employees but who first became fire fighters at an age younger than 36. Membership under an authorization is optional with each employee, except that an employee must, before beginning membership, pass any physical examination requirement established under Subsection (e) of this section.

(g) A service retiree of a retirement system may not rejoin or receive credit in the system for any postretirement service performed for the fire department included within the coverage of the system.

Section 10

Service Credit

(a) Service credit is earned in a retirement system for each month for which an employee makes the contribution required under this Act.

(b) Service credit is earned in a retirement system for each calendar year in which a volunteer answers at least 25 percent of all fire alarms determined by the board of trustees and attends at least 40 percent of all drills held by the fire department.

(c) A retirement system shall also grant service credit to a member who leaves the service of a fire department and later returns, if the break in service is attributable to service for any period as a member of the armed forces of the United States

during a war or national emergency.

(d) Absence from service by an employee does not forfeit service credit accrued before the absence begins, unless membership is terminated. Absence from service by a volunteer does not forfeit service credit accrued before the absence begins.

(e) A board of trustees established under this Act may, in accordance with Section 7 of this Act, expand the circumstances under which service credit is earned.

Section 11

Previous Fire Department Service

(a) Except as provided by Subsection (c) of this section, a person who elects to become a member of a retirement system under an authorization adopted under Subsection (f) of Section 9 of this Act may establish credit in the retirement system for previous service performed for another fire department included within the coverage of a retirement system under this Act. To establish credit for the previous service, the person must deposit with the retirement system an amount determined by the board of trustees that is equal to the sum of:

(1) the amount that the person would have contributed to the system if the person's previous fire department service had been performed for the department by which the person is employed, computed on the member contribution rate in effect in the retirement system at the time the service was performed and on the person's compensation for the previous

service; and

(2) interest on the amount described by Subdivision (1) of this subsection at the rate of eight percent, compounded annually, from the date the service was performed to the date of deposit.

(b) If a person makes the deposit described by Subsection (a) of this section, the municipality or other political subdivision served by the fire department that employs the person shall deposit with the retirement system an amount determined by the board that is equal to the sum of:

(1) the amount that the municipality or other political subdivision would have contributed to the system if the person's previous fire department service had been performed for the department by which the person is employed, computed on the contribution rate of the municipality or other political subdivision in effect in the retirement system at the time the service was performed and on the person's compensation for the previous service; and

(2) interest on the amount described by Subdivision (1) of this subsection at the rate of eight percent, compounded annually, from the date the service was performed to the date of deposit.

(c) A person may not establish credit under this section for service that is credited in another public retirement system, including another retirement system subject to this Act.

Section 12

Service Retirement

(a) A member of a retirement system is eligible for retirement for service if the member is at least 55 years old and has performed at least 20 years of service that is credited in the retirement system.

(b) Except as provided by Subsection (c) of this section, monthly benefits payable for service retirement are \$100 to a retiree whose service was not exclusively as a volunteer and \$25 to a retiree whose service was exclusively as a volunteer.

(c) A board of trustees established under this Act may, in accordance with Section 7 of this Act:

(1) decrease the age or service requirements for service retirement from a particular retirement system; or

(2) determine formulas for computing benefits, classes of permissible beneficiaries, and other requirements for payment of service retirement benefits, as long as the minimum benefits payable to a retiree are not less than the amounts provided by Subsection (b) of this section.

Section 13

(a) A member of a retirement system who meets an applicable length-of-service requirement for service retirement benefits but does not meet the applicable age requirement for service retirement benefits may terminate employment with or otherwise discontinue service for the fire department and

remain eligible to receive service retirement benefits from the retirement system on attaining the applicable age, as long as the member does not withdraw contributions in the retirement system.

(b) A member who terminates employment or otherwise discontinues service after meeting an applicable length-of-service requirement for service retirement may not be required to pay to the retirement system contributions that become due after the date of termination or discontinuance.

Section 14

Disability Retirement

(a) A member of a retirement system is eligible for retirement for disability if the member becomes physically or mentally disabled, except as the result of a condition the member had on the date the member became an employee or volunteer, in or in consequence of the performance of the member's duties as an employee or volunteer of the fire department included within the coverage of the retirement system.

(b) An application for disability retirement must be filed with the board of trustees of the retirement system of which the applicant is a member. The application must contain a sworn statement of the member's medical condition, signed by a physician attending the member, and a sworn statement of the circumstances under which the disability arose, signed by the member or another person who has reason to know those circumstances. The application also may contain other pertinent information to enable the board to determine

whether the member is eligible for disability retirement.

(c) A board of trustees may require an applicant for disability retirement to be medically examined by one or more physicians of the board's choice but may not require the applicant to pay the cost of a medical examination required under this subsection.

(d) If a board of trustees determines that an applicant for disability retirement meets the eligibility requirements for disability retirement from the retirement system, the board shall retire the member.

(e) Except as provided by Subsection (f) of this section, monthly benefits payable for disability retirement are \$100 to a retiree whose service was not exclusively as a volunteer and \$25 to a retiree whose service was exclusively as a volunteer.

(f) A board of trustees established under this Act may, in accordance with Section 7 of this Act:

(1) expand the circumstances under which disability retirement benefits become payable;

(2) require periodic medical examinations of, periodic vocational rehabilitation examinations of, or periodic financial information from disability retirees to determine whether the retiree remains eligible to receive disability retirement benefits; or

(3) determine formulas for computing benefits, classes of permissible beneficiaries, and other requirements for payment of disability retirement benefits, as long as the

minimum benefits payable to a retiree who remains eligible for disability retirement resulting from the performance of duty are not less than the amounts provided by Subsection (e) of this section.

(g) The vested accrued benefit of a retiree under this section who is retired as of the determination date is subject to the terms established by the retirement system as those terms exist on the determination date and is payable to the retiree only if the retiree meets the eligibility requirements established by the board of trustees under this section.

(h) Notwithstanding any other provision of this Act, a disability retirement benefit is not a vested accrued benefit until a member becomes disabled under the terms of the retirement system.

Section 15

Death Benefits

(a) A death benefit is payable as provided by this section on the death:

(1) of a member of a retirement system that occurs in or in consequence of the performance of the member's duties as an employee or volunteer of the fire department included within the coverage of the retirement system;

(2) of a member of a retirement system for any reason if the member met the applicable length-of-service requirement for service retirement at the time of death; or

(3) of a retiree of a retirement system.

(b) Except as otherwise provided by this section, monthly benefits payable on the death of a member or retiree are:

(1) \$100 to an eligible surviving spouse of a member or retiree whose service was not exclusively as a volunteer and \$16.67 to an eligible surviving spouse of a member or retiree whose service was exclusively as a volunteer;

(2) if there is an eligible surviving spouse and a minor child, \$20 to the guardian of each minor child of a member or retiree whose service was not exclusively as a volunteer and \$6 to the guardian of each minor child of a member or retiree whose service was exclusively as a volunteer;

(3) if there is no eligible surviving spouse at the time of death of the member or retiree or if the surviving spouse dies or becomes ineligible to receive benefits during the minority of a surviving child, \$40 to the guardian of each minor child of a member or retiree whose service was not exclusively as a volunteer and \$12 to the guardian of each minor child whose service was exclusively as a volunteer; and

(4) if there is no eligible surviving spouse or minor child at the time of death of the member or retiree, a total of \$100 to one or more surviving dependent parents of a member or retiree whose service was not exclusively as a volunteer and a total of \$16.67 to one or more dependent parents of a member or retiree whose service was exclusively as a volunteer.

(c) To be eligible to receive benefits as a surviving spouse

under this section, a person must remain unmarried after the death of the member or retiree. To be eligible to receive benefits as a surviving spouse of a deceased retiree, a person also must have married the deceased before the deceased's retirement. To be eligible to receive benefits as a surviving spouse of a deceased member who had terminated employment with or otherwise discontinued service for the fire department, a person also must have married the deceased before the termination or discontinuance.

(d) If a member or retiree for whom death benefits are payable under this section is survived by a child who is totally disabled as a result of physical or mental illness, injury, or retardation, the guardian of the child is entitled to receive for the benefit of the child and the duration of the child's disability any benefit that would be payable to the guardian of a surviving minor child.

(e) A board of trustees established under this Act may, in accordance with Section 7 of this Act:

(1) expand the circumstances under which death benefits become payable; or

(2) determine formulas for computing benefits, classes of permissible beneficiaries, exclusions from payment of benefits for certain causes of death, and other conditions for payment of death benefits.

(f) The vested accrued benefit that an eligible survivor receives under this section as the result of the death of a member or retiree on or before the determination date is

subject to the terms established by the retirement system as those terms exist on the determination date.

(g) Notwithstanding any other provision of this Act, a death benefit is not a vested accrued benefit until the member or retiree for whom death benefits are payable dies.

Section 16

Reduction of Benefits during Deficiency

If money available for benefits currently payable by a retirement system is insufficient to pay the full amount of those benefits, a board of trustees may proportionately reduce all benefit payments for the time necessary to prevent payments from exceeding money available to pay the benefits.

Section 17

Person Causing Death of Member or Annuitant

(a) A benefit payable on the death of a member or annuitant may not be paid to a person convicted of causing that death but instead is payable to a person who would be entitled to the benefit had the convicted person predeceased the decedent. If no person would be entitled to the benefit, the benefit is payable to the decedent's estate.

(b) A retirement system is not required to pay a benefit under Subsection (a) of this section unless it receives actual notice of the conviction of the person who would have been entitled to the benefits. However, a retirement system may delay

payment of a benefit payable on the death of a member or annuitant pending the results of a criminal investigation and of legal proceedings relating to the cause of death.

(c) For the purposes of this section, a person has been convicted of causing the death of a member or annuitant if the person:

(1) has pleaded guilty or nolo contendere to or has been found guilty by a court of an offense at the trial of which it is established that the person's intentional, knowing, or reckless act or omission resulted in the death of a person who was a member or annuitant, regardless of whether sentence is imposed or probated; and

(2) has no appeal of the conviction pending and the time provided for appeal has expired.

Section 18

Provisions Applicable to Boards of Trustees Generally

(a) A board of trustees established under this Act may receive, handle, control, manage, and disburse the fund for the retirement system, hear and determine all applications for retirement and claims for disability, either partial or total, and designate beneficiaries and participants as provided by this Act. The chairman and vice chairman of a board may swear witnesses for the purpose of taking testimony before the board on any matter related to the fund. A board may issue a subpoena addressed to a sheriff or constable to require the

attendance of a witness or the production of books, records, or other documents that may be necessary and proper for the purposes of a proceeding before the board.

(b) A member of a board of trustees established under this Act takes office on the first meeting of the board that occurs after the member is elected or designated a member or assumes the position that makes the person a member *ex officio*. At the time a person takes office as a member of a board of trustees established under this Act, the person shall take an oath of office that the person will diligently and honestly administer the affairs of the retirement system and fund and will not knowingly violate or willingly permit to be violated any provision of this Act.

(c) A board of trustees established under this Act shall meet monthly at such times and places as the board by resolution designates and at other times at the call of the chairman. A majority of the trustees of a board is a quorum.

(d) A board established under this Act shall keep accurate minutes and records of its proceedings and a record of all claims, receipts, and disbursements relating to the fund. An order of a board must be made by vote recorded in the minutes of its proceedings.

(e) A board established under this Act may make a disbursement from the fund only on a regular voucher signed by one or more persons designated by the board. Subject to the approval of a majority of the participating members voting by secret ballot at an election at which at least 50 percent of the participating members of the retirement system vote, a

board established under this Act shall determine whether the signatures of one, two, or three persons are required for vouchers.

(f) A board of trustees established under this Act may designate a bank or, as applicable, the chief financial officer of the municipality or other political subdivision or the secretary-treasurer of the board to be custodian of the assets of the retirement system. If the chief financial officer or the secretary-treasurer of the board is designated custodian, the person's official bond and oath of office are conditioned additionally on the faithful performance of the person's duties as custodian of the assets of the retirement system.

(g) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1316, Sec. 4.01(3), eff. Jun. 14, 2013.

(h) A vacancy in the office of a trustee of a board established under this section shall be filled for the remainder of the unexpired term in the manner that the office was previously filled.

Section 18A

Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1316, Sec. 4.01(4), eff. June 14, 2013.

Section 18B

Technical Assistance, Training, and Information for Boards of Trustees

(a) The State Pension Review Board shall provide technical assistance, training, and information to members of the boards of trustees established under this Act. The training required by this section must be designed to meet the specific needs of members of boards of trustees administering benefit plans for local fire fighters, including small-to-medium-sized benefit plans.

(b) To the extent resources are available, the board shall designate one person who specializes in providing the technical assistance, training, and information required under Subsection (a).

Section 19

Board of Trustees for Paid or Part-Paid Fire Department

(a) In each municipality and other political subdivision to which this Act applies and that has a fire department that does not consist exclusively of volunteers, the fire fighters' retirement system is governed by a board of trustees consisting of:

or the chief operating officer's designated representative, as applicable;

(2) the chief financial officer of the municipality or other political subdivision or, if there is no officer denominated as chief financial officer, the person who performs the duties of chief financial officer or a person designated by the chief financial officer or by the person performing the duties of chief financial officer;

(4) two persons who reside in this state, who are not officers or employees of the municipality or other political subdivision, and who are elected by a majority vote of the members of the board of trustees determined as provided by Subdivisions (1), (2), and (3) of this subsection.

(b) During each period that begins on December 1 of one year and ends on January 31 of the following year, the participating members of a fire fighters' retirement system in a municipality or other political subdivision subject to this section shall elect by secret ballot and certify to the governing body of the municipality or other political subdivision a member to the board of trustees to serve a term of three years. To be elected a member of a board of trustees under this subsection, a person must be a participating member of the retirement system and receive a majority of the votes cast in the election, and at least 50 percent of all participating members of the retirement system must vote in the election.

Provided, however, that if only a single person is nominated for the board of trustees position being filled, that person may be elected by acclamation by those participating members present for the election meeting, without the necessity of a secret ballot.

(c) Annually, at a meeting in March, the members of a board of trustees determined as provided by Subdivisions (1), (2), and (3) of Subsection (a) of this section shall elect a member to the board, as provided by Subdivision (4) of Subsection (a) of this section, to serve a term of approximately two years that expires on the day before the date of the first board meeting that occurs after the meeting at which a successor is elected.

(d) A board of trustees established under this section annually shall elect a chairman, vice-chairman, and secretary.

To be elected a member of a board of trustees under this subsection, a person must be a member of the retirement system and receive a majority of the votes cast in the election, and at least 50 percent of all participating members of the retirement system must vote in the election.

(c) The municipal treasurer is the secretary-treasurer of a board of trustees established under this section. A board of trustees established under this section annually shall elect a chairman and a vice-chairman to preside in the absence or disability of the chairman.
